Charter flights are available for both routes, rental cars and shuttle services are available at each airport. General information concerning transfers and related costs are provided on the other side of this sheet.

A. The boats arrive at the Hite marina about 2:00 p.m. A 30 minute scenic charter flight over Canyonlands National Park will return passengers to Moab arriving about 4:00 p.m. Vehicles that have been shuttled will be waiting at Hite Marina.

LUGGAGE STORAGE

Q. HOW SHALL I CARRY MY CLOTHES AND PERSONAL ITEMS TO THE RIVER?

A. Unless you are traveling to other destinations after your river trip, for which a suitcase may be needed, we recommend you bring your clothes, personal items and any packaged liquor in a soft nylon bag no larger than 12"X12"X24". At the warehouse you will receive a dry bag (water-resistant, rubber bag) into which you will transfer the items from your soft nylon bag. The dry bag also contains your sleeping bag and foam pad. Do not bring suitcases or backpacks to the river (pack light).

Q. WHAT DO I DO WITH MY EXCESS LUGGAGE?

A. Excess luggage may be stored at your hotel. If your hotel does not provide storage, we can arrange for storage at our office. If you are driving to Moab, luggage can be locked in your car and parked at our warehouse parking area during your river trip.

WHAT TO EXPECT ON THE TOUR

Q. WHAT KIND OF WEATHER CAN WE EXPECT? WILL IT RAIN?

A. Throughout the summer months, temperatures range from 80 to 100+ degrees. The evenings are 10-15 degrees cooler. Occasional summer rains occur. Rain is more frequent in May and June, than in July and August. Passengers should come prepared for rain at any time during the boating season.

Q. SHOULD I BRING A CAMERA?

A. We encourage you to bring a camera and plenty of film to record your river adventure. To protect your camera, store it in two zip-lock bags. On the river, water resistant ammo cans are provided by WWRE for easy access and storage. We have found that the disposable waterproof cameras work well.

Q. WILL I NEED MONEY ONCE I LEAVE THE HOTEL?

A. River maps, t-shirts, sunglasses, sunscreen, squirt guns, and other items are available in our company store before and after your trip. You may want to keep some money with you for gratuities for your guides. Do not bring anything that you cannot afford to lose - airline tickets, car keys, wallets, jewelry, etc. We suggest bringing a photo ID and a credit card for emergency purposes only.

Q. WHAT ABOUT GRATUITIES?

A. You should never feel that a gratuity is automatically expected from you, but it is a great way to acknowledge excellent service. Our guides work hard to make each expedition a memorable and rewarding experience for you. May we suggest \$10-\$20 per person per day given to your trip leader who will then distribute it evenly with all the guides on your trip.

Q. ARE THERE MAPS AVAILABLE TO PURCHASE BEFORE THE TRIP?

A. There is an excellent waterproof map available through our office. It provides a mile-by-mile description of the historical and some geological aspects of the river. The map covers a much larger section of the river than we actually run and is a beautiful and useful souvenir of your trip. This is the same map your guide uses. Cost is \$16.95 plus \$3.00 for postage. To order call (800) 231-2769. This map is also available in our office at the beginning of your trip.

Q. WHERE DO I PURCHASE BEER AND SOFT DRINKS?

A. You may purchase beer and soda pop in Moab the night before your river trip. Because of limited space available on the rafts, we recommend only bringing 2 six-packs of cans per person. Drinks are placed in a drink cooler as space is available. We provide water and lemonade on the rafts during the day. Coffee, tea and hot chocolate are available in camp, in addition to the water and lemonade. Any wine or liquor will need to be packed in your dry bag. **PLEASE TRY NOT TO BRING GLASS.**

NOTE: Consumption of too much alcohol by some individuals can destroy the full enjoyment of a wilderness river trip for other passengers. A person has less control in dangerous situations when excessive amounts of alcohol have been consumed. If you view excessive consumption of alcoholic beverages an essential element in your wilderness experience we suggest that you charter a private trip.

Q. WHAT ARE THE CLASSIFICATIONS OF THE RAPIDS?

A. We get numerous calls asking about the classification of rapids. Oftentimes, clients have participated in a paddle raft experience on the smaller, mountain streams, located in their areas where the difficulty of the river is graded I-VI, with VI being unrunnable. Such a grading system doesn't work very well on the larger rivers (Colorado, Green & Main Salmon) as we've never encountered a VI, even during periods of extreme high water. What may be classified as a potential six, quickly drops to a five, then a four, three and two. As the summer wears on, the level of the river drops dramatically. The best gauge we can give is that the rivers we operate on are at their highest, fastest and meanest level early in the boating season (late May through late June) and at their lowest level in July and August.

Q. WHAT EQUIPMENT WILL I RECEIVE?

A. Water-resistant rubber bag (dry bag)**
Sleeping bag, foam pad or cot, tarp
Personal ammo can**
Eating utensils
A souvenir mug you may keep
** An ammo can is an army surplus, water resistant metal can measuring 12"Lx6"Wx7"H. It is the storage unit on the raft that is available to you during the course of the day. The dry bag, which contains your soft nylon bag items, sleeping bag and foam pad will be secured to the raft during the day and not accessible except in camp.

Q. ARE TENTS PROVIDED?

A. Your guides will bring along sufficient tents for two people per tent plus a few extra to accommodate those traveling alone. These are comfortable, roomy tents available for your use. As the guides have the communal camp to set up, passengers will set up their own tents.

Q. WHEN WILL I RECEIVE MY CAMPING GEAR?

A. The camping gear will be already packed with your sleeping bag, foam pad, and ground cloth and will be given to you at the orientation meeting the night before your departure. The bags and ammo cans are numbered. Once you take a bag and can, you will need to remember the number so you will be able to claim your personal equipment each evening.

Q. WHAT ARE THE TOILET FACILITIES LIKE?

A. For your comfort and convenience, a portable toilet is set up in camp. Usually it's in a "John" tent, but sometimes it's in a secluded place behind a large rock or clump of trees. The toilet is available each evening and morning and for emergencies during the day. Our guides (both male and female) are sensitive to the unique challenges that may be encountered by women while traveling in a wilderness area. Please don't hesitate to ask if there are questions concerning these issues. It is helpful for women to wear 2 piece swimsuits and/or have a skirt or wrap around sarong to wear while on the trip for more privacy. Ziploc bags are handy for storage and disposal of feminine hygiene products.
