

3-Day 3-Night Fisher Towers Basic Menu

This is a listing of the menu items that we provide. We do not make substitutions to our menu. Please let us know ahead of time by email of any food allergies and then remind the guides as they start to fix the meal so adjustments can be made to the food preparation (ie keeping croutons out of the salad, providing a vegetarian sauce, keeping peanut butter off the serving table until the participant has gone through). If the allergy is severe other precautions will be taken. Any participant with a food allergy, sensitivity, or dietary requirements are welcome to bring any substitutions to supplement what we are providing in their own coolers. As space is available we can move it to our larger coolers. This menu is subject to change a little based upon the availability of some items.
